

ENVIRONMENT MANAGEMENT POLICY

COMMITMENT

CYP Design & Construction Joint Venture is committed to:

- Protecting the environment by minimising construction impacts
- Respecting and caring for Melbourne's ecological, amenity and heritage values
- Maintaining Melbourne's liveability by preventing air, land and water pollution
- Complying with environmental legislative requirements and regulations as a minimum.

APPROACH

CYP Design & Construction Joint Venture addresses its commitment to the environment through the consistent implementation of its Environmental Management System to ensure integrity, promoting a culture of exceptional environmental management through collaboration.

POLICY IN PRACTICE

To deliver this with certainty CYP Design & Construction Joint Venture will:

- Ensure our employees, contractors and delivery partners meet our standards by ensuring they have the necessary skills and are aware of and support this Environmental Policy and our practices
- Maintain an Environmental Management System that meets the requirements of ISO14001:2015 and ensure this is integrated into our business model
- Regularly review our approach including the Environmental Policy and our practices to ensure their relevance
- Support continuous improvement of CYP Design & Construction Joint Venture policy and practices and our employees and contractors to minimise construction impacts
- Regularly report on compliance with the Project's Environmental Performance Requirements
- Provide a sustainable legacy, in a new Metro Railway, that connects Melbournians for generations to come
